School years

The school years section helps you get to know the important highlights of your child’s learning activities from year to year.

Click on each year to find out about the focus of your child’s learning, any upcoming national or state tests or assessments, and how to help them prepare for transitions as they progress through school.

There are links to great tips on how to help your child learn, and how to understand your child’s schoolwork and homework. Much of the information is also available in multiple community languages.

NBHS BYOD
Bring Your Own Device (BYOD)

Normanhurst Boys High School has developed a Bring Your Own Device (BYOD) policy to best meet the teaching and learning needs of the community. Devices began being connected to the network towards the end of Term 2 2014. Please read the Normanhurst Boys High School BYOD Device Specifications Document prior to selecting a device.

BRING YOUR OWN DEVICE

The Digital Education Revolution (DER) program for Year 9 students ended with the issue of devices to students in 2013. To replace this program NBHHS has been developing a BYOD program. Please read this section carefully before purchasing a device for your son.

As a community we have endeavored to provide parents and students with the maximum amount of choice in the selection of a device. Devices purchased for use at school need to be portable, robust and have sufficient battery life to operate for a school day. While we have not gone down the path of specifying particular devices, DEC schools have had a long relationship with Lenovo, Acer and Dell. These companies offer a range of devices that are appropriate for school use. I would encourage you to compare the products on offer from these three suppliers before purchasing from any other source.

Student Software Link:

Academic Software Download (Office, Windows and Adobe Products)

You will need your Student Record Number (SRN) to register and download the software and registration codes. This will be available to you after you have completed and returned the User Agreement. It's very important to keep a record of the serial numbers/registration codes as they expire 30 days after registration. If you wish to install this software on another machine at a future date you will need this information.

Microsoft Office 365 is available through the student portal.
